

RH02 ZET
KILIM
DESIGN: RICHARD HERRE, 1926

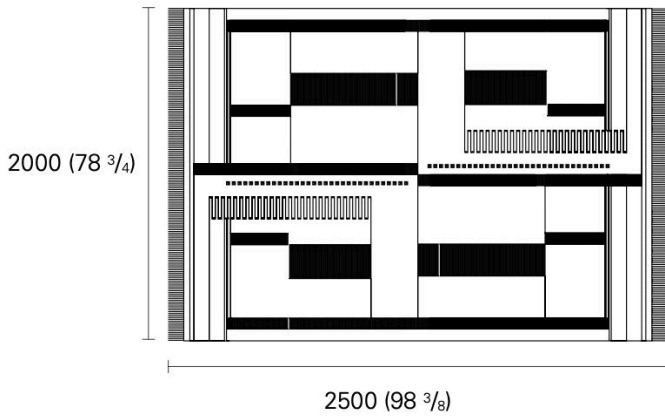

ZET is a graphically poignant and chromatically striking design that captures the spirit of 1920s New Objectivity. Designed in 1926 and specified for the Max Taut Weissenhof house, ZET represents Richard Herre's exceptional use of color whilst signifying the imaginative spatial reference of his work. In close collaboration with the Herre family and the archives, e15 re-issues kilim ZET. Available in various color compositions ZET is made of pure, hand-spun sheep wool combining traditional weaving methods with historic design.
